

## Institutionals

# Representative Offices and Financial Institutions desks

The Commerzbank Group has a strong presence worldwide thanks to subsidiaries, branches and representative offices.

The Representative Offices and Financial Institutions desks of Commerzbank AG are the foreign outlets of the Institutionals department.

Both kinds of FI foreign outlets provide information about the range of products and services offered by the Institutionals department in particular and by Commerzbank AG in general. In addition to this, as a result of their detailed knowledge of the customs and practices prevailing in the respective coun-

try and their continuous in situ analysis of the economic and political developments, they can make comprehensive and up-to-date general and background information available in each case.

The FI foreign outlets are the local contact for both existing and potential customers who wish to maintain or commence business relationships with Europe. The same applies to corporate clients of Commerzbank AG who intend to conduct operations, intensify existing business activities or indeed establish organisational units of their own in the respective country.
