**Trainee International Digital Development Programme (m/w/divers)**

**The Job:**
Digital Talents wanted! You develop innovative solutions for strong customer experiences. Be a part of our mobile-first strategy and the continuous digitalization of our business model - all around the globe.

**Locations:**
Main location: Frankfurt am Main
Optional stations: Berlin, Łódź, Sofia, Quickborn (near Hamburg)
Stay abroad in New York, Singapore or London

**The content:**
Training on the job in strategic, digital and agile projects over the course of 18 months, all around the world. We offer you innovative, digital seminars and training opportunities (e.g. project management, programming, design thinking), as well as e-learning concepts (e.g. Google Squared).
Application & Selection process:
We are excited for your creative(!) online application in English (e.g. a video of yourself or a self-created website). If your application convinces, we will contact you to schedule a phone interview, followed by an invitation to our online assessment center. If selected, you will receive a pre-contract the same day and the final contract within a few weeks.

Your profile:
You have completed a Bachelor’s or Master’s degree and possess a “digital mindset”. Moreover, you are curious and enjoy advancing digital solutions independently, as well as being part of a team. In short – someone with a quick grasp who orchestrates everyday life with mobile devices. The words “Disruption” and “Cloud” are not strangers to you but rather old acquaintances. You are rich with ideas and are not afraid to tackle new grounds – your creativity, versatility and courage are exactly what we are looking for! On top of that, you communicate confidently in English (B2) and have a strong command of German (B2).

What happens next:
After the completion of your trainee programme, we offer you various possibilities to further your career based on your personal aspirations and career objectives. You will then enter an exciting digital or strategic unit at Commerzbank or one of its subsidiaries.
